

## Josh Wodak

Josh conducted his residency from 10 September to 7 October

***Jubilee venn diagrams? (do you believe in diagrams?)*** was a project conducted by Josh for his Grafton Regional Gallery Artist in Residence program from 10 September to 7 October 2012. Josh invited people with an interest in climate change to be portrait subjects for the project.

22 Members of the Clarence Valley community were part of this series of composed portraits which look at our understanding and opinions about climate change. Each participant posed for portraits and record audio interviews to create a series of video-portraits and a sound collage of audio recordings.

Josh's residency included artist talks at Grafton Primary School and Grafton Regional Gallery and a pop up exhibition at Link Space, Grafton Shopping World.

*This program was supported by funding from Arts NSW*
