

Steve Giese - Behave with grace and intelligence

Steve Giese's billboard references the colours of road signage to deliver a statement of positive and powerful effect. *Behave with grace and intelligence* is, direct and mysterious, didactic and ironic. It's a statement that the artist hope will form an indelible memory as the viewer drives down the highway.

Steven's cheeky phrase stimulates thoughts about the meaning of such concepts and the artist's interest in ethical mindfulness which he feels is rarely connected to the context of thousands of people moving at high velocity.
